## WILDLIFE & FOOD PRODUCTION

### Name

#### Royal Agricultural Society of England & Innovation for Agriculture

"RASE – Farm of the future – publications, posters and information around all things journey to net zero in farming  
IfA – Interactive Soils demo's & innovations in livestock production, climate smart farming case studies."

#### Weald to Waves Project

The Weald to Waves initiative is creating a 100-mile-plus nature recovery corridor across Sussex, connecting fragmented landscapes to boost biodiversity, capture carbon, enhance food production, and enrich the rural economy. We are farmer and land-manager led, and work alongside councils, researchers, wildlife charities, schools, gardeners, and community groups to restore and connect nature.

#### Woodland Trust

[www.woodlandtrust.org.uk](http://www.woodlandtrust.org.uk) [www.lostwoods.org.uk](http://www.lostwoods.org.uk)

"Lost Woods is bringing local people together to learn about, explore, and care for woods across the Low Weald and Downs. Together, we can reconnect with our ancient woodlands and revive, restore, and protect them for future generations. Alongside our work with local communities, we are supporting landowners and farmers with advice and training to manage their woodland. We can:

Survey ancient woodlands and assess any threats to their future, which may include invasive species, pests, development, or changes in climate conditions. The more we understand the individual woodlands in the Low Weald, the more we can help protect them and boost their biodiversity.

Create woodland management plans specific to your woodland, to improve its condition and attract a range of wildlife. We can also help you to put those plans into action.

Develop your skills, including training in traditional skills such as coppicing, hedge laying and charcoal production.

Grow woodland buffers, expand and connect woods through natural regeneration and planting, making them more resilient to outside threats.

Plan income-generation activities that are sustainable for the woodland.

Care for ancient and veteran trees, and grow their next generation.

The five-year project (running until Autumn 2027) is made possible with The National Lottery Heritage Fund."

#### Ashdown Forest

Focusing on education and raising awareness of Ashdown Forest, there will be free family activities and self-led activities

#### Pasture for Life

#### CLM - Local Farming Cluster Groups
